

## 2020 NSPCB Calendar

For 2020, the NSPCB will produce a calendar focusing on the bridge builders with existing examples of their work. The following list represents the 13 states and craftsmen to be included.

We are seeking current and historic digital images of these bridges for consideration. Submissions covering multiple seasons would be greatly appreciated. If public domain photographs of these builders are available, we would like to include them as well. Information about the builders is also desired.

Each month will feature a current and historic photo of the bridge plus photo of the builder if available. Captions will include brief biographical information about the builder.

The committee will attempt to include the works of as many different photographers as possible. All submissions must be received by February 28, 2019. Images and other information can be emailed to [nspcb@yahoo.com](mailto:nspcb@yahoo.com) or sent on CD to Bill Caswell, 535 2<sup>nd</sup> NH Tpke, Hillsboro, NH 03244.

### California

Galen Clark.....Wawona Bridge (05-22-01)..... Built 1878
